

MAXX Into2

HIGHLY CONCENTRATED DAILY AND PERIODIC SANITARY CLEANER

Performance

- Combines outstanding removal of limescale, urine stone and soap build-up, with excellent emulsification of body fat and dirt
- Especially well suited for high traffic washrooms
- With long lasting perfume technology which attacks and controls urine smell

Efficiency

- Easily removes limescale, urine stone and dirt
- Effective in low concentration (from 0,5%) to reduce cleaning costs

Safety

- Material friendly formulation allows use on acid resistant surfaces
- Colour-coded system to ensure the use of the right product for the right cleaning task

Neutralization of Odor Molecules

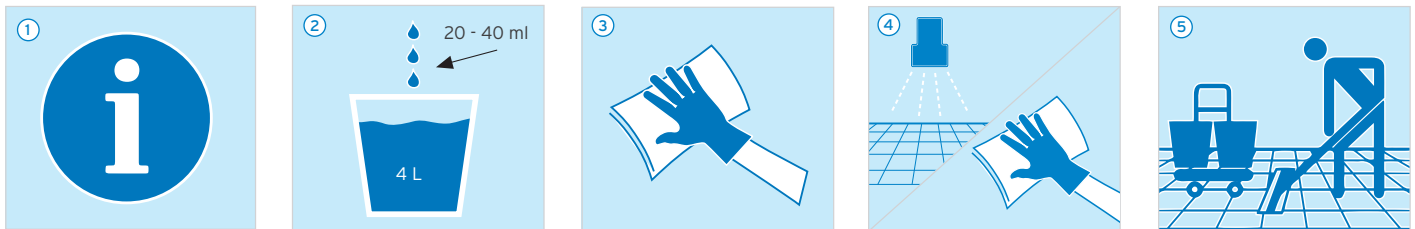

- ▲ The bad smells will be encapsulated and just a pleasant smell will remain.
- ▲ With regular use, the effect is intensified, thus resulting in the prevention of bad odors appearing.

Recommended Customer Areas

- ▲ For maintenance cleaning of all acid proof surfaces and floors in bathrooms with hard water.

Use Instruction:

1. Check hygiene plan for detailed use information.
2. Dilute 20 - 40 ml of MAXX Into2 with 4 L water. Use undiluted on stubborn soiling.
3. Apply the cleaning solution onto a microfibre cleaning cloth or sponge. Wipe the surface. We recommend using MAXX Into2 in combination with colourcoded Polifix microfibre cloths to avoid cross contamination.
4. Rinse with water or wipe with a clean damp cloth.
5. For manual floor cleaning we recommend the product in combination with Ecolab microfibre mopping systems.

SPECIAL NOTES / INFORMATION:

Test material compatibility in a small inconspicuous area before use.

Position warning signs 'Attention wet floor' and leave in place until surface is totally dry.

For professional use only!

Safety Data Sheet for professional users available on request.

STORAGE CONDITIONS:

Recommended storage temperature between 0 °C and 40 °C.
