

AquaHeater T

AquaHeater SMART

AquaHeater P

AquaHeater Plus Energy Saving Solution

AquaHeater products are high efficiency gas heaters; can integrate a disk water buffer filtration unit (Aquaheater P).

When required AquaHeater products can be connected to water tanks to manage hot water buffers (AquaHeater Plus Smart).

MAIN FEATURES

- ◆ High efficiency gas heater
- ◆ Dynamic control of heating to match demand
- ◆ Filtration down to 25 micron
- ◆ Stainless steel components
- ◆ Optional water buffer tank
- ◆ 97% efficiency
- ◆ Capacity 55, 80, 120, 180 kW

BENEFITS

- ◆ Cut investment budget
- ◆ Optimize operating cost
- ◆ Reduce energy
- ◆ Increase & secure productivity
